

PRINCIPAL INVESTIGATOR

SEMINAR SERIES SPRING 2022

WHERE: University Campus, Building B11, Room 205
WHEN: Every Friday – from 13:00, February – May (Spring Semester)

The winner of the BioVendor Award for the Autumn 2021 Best Presentation will be announced at the first seminar on the 25th of February.

FEBRUARY

25/02/2022 **Vladimír Šindelář** Bambusurils
 Faculty of Science, Masaryk University

22/04/2022 **Dalibor Blažek** New Ways of Gene Regulation and Disease Targeting with Cyclin-dependent Kinases and Its Inhibitors
 Inherited Diseases – Transcriptional Regulation, CEITEC MU

MARCH

04/03/2022 **Mary O' Connell** ADARs, the RNA Editing Enzymes That Are Key to Combating Disease
 Era Chair – RNA and Immunity, CEITEC MU

29/04/2022 **Zuzana Kadlecová** Regulation of Cell Surface Logistics
 Faculty of Medicine, Masaryk University

18/03/2022 **Tomasz Nodzynski** Maintaining the Frontier – Plant Sub-cellular Trafficking in Trying Times
 Developmental and Cell Biology of Plants, CEITEC MU

MAY

25/03/2022 **Radka Svobodová** Analysis of Protein Structures
 Computational Chemistry, CEITEC MU

06/05/2022 **Martin Lysák** Genomics-driven Updates on Chromosomal Evolution in Plants
 Plant Cytogenomics, CEITEC MU

13/05/2022 **Jiří Šponer** The Fascinating World of Nucleic Acids: From the Origin of Life to Modern Biochemistry
 Faculty of Science, Masaryk University

APRIL

01/04/2022 **Miloslava Fojtová** Telomeres and Telomerases – Plants Certainly Have Something to Say
 Faculty of Science, Masaryk University

20/05/2022 **Irena Koutná** Cellular Immunity in the Treatment of Post-transplant Viral Infections
 Faculty of Medicine, Masaryk University

08/04/2022 **Michal Šmída** Investigation of New Opportunities for Immunotherapy of B-cell Malignancies
 Functional Genomics, CEITEC MU
