

MASARYK
UNIVERSITY

PRINCIPAL INVESTIGATOR

WHERE: University Campus, Building A11, room 205

WHEN: Every Friday – From 13:00 September – December (Autumn Semester)

SEMINAR SERIES

SEPTEMBER

23/09/2016 **Aleš Hampel**

Histology and Embryology,
Faculty of Medicine, MU

Stem cells: From basic biology to use in engineering tissues

30/09/2016 **Martin Vácha**

Experimental Biology,
Faculty of Science, MU

Where light and magnet meet: a role of Cryptochrome in magnetic sensitivity of animals

OCTOBER

07/10/2016 **Jaroslav Koča**

Structural Biology,
CEITEC MU

Structural bioinformatics – a platform to connect 3D structure and biological functions of biomacromolecules

14/10/2016 **Jan Hejátko**

Genomics and Proteomics
of Plant Systems, CEITEC MU

Who's talking? The signal integration and signaling specificity in plants

21/10/2016 **Lukáš Kubala**

Experimental Biology/
Faculty of Science, MU

Neutrophil-Mediated Regulation of Inflammation: The Role of Myeloperoxidase

NOVEMBER

04/11/2016 **Ondřej Slabý**

Molecular Medicine,
CEITEC MU

Non-coding RNAs in solid cancer: from bedside to bench and back

11/11/2016 **Robert Vácha**

Structural Biology,
CEITEC MU

Interaction of proteins and nanoparticles with phospholipid membrane

25/11/2016 **Sabina Ševčíková**

Pathological Physiology,
Faculty of Medicine, MU

Multiple myeloma- the view from the bench

DECEMBER

02/12/2016 **Marcela Buchtová**

Experimental Biology,
Faculty of Science, MU

Molecular and cellular processes contributing to craniofacial developmental defects

09/12/2016 **Julie Bienertova-Vasku**

Pathological Physiology,
Faculty of Medicine, MU

Exposure pathophysiology - common causes of common diseases

16/12/2016 **Pavel Krejčí**

Experimental Biology,
Faculty of Science, MU

Regulation of Cell Function by FGFR3

CONTACT:

www.ceitec.eu/era-chair/events/

Funded under FP7 project, The ERA Chair Culture as a Catalyst to Maximize the Potential of CEITEC' (contract no. 621368).
